

EIT Culture & Creativity

European Institute of Innovation & Technology (EIT)

Overview

EIT Culture & Creativity is a European innovation initiative dedicated to strengthening the cultural and creative sectors across Europe. It is one of the Knowledge and Innovation Communities (KICs) established by the European Institute of Innovation and Technology (EIT), bringing together universities, companies, cultural institutions, and startups.

Goal

Its goal is to foster innovation, entrepreneurship, and collaboration in fields such as architecture, cultural heritage, media, fashion, design, and the performing arts.

The initiative supports education programmes, startup accelerators, innovation projects, and cross-sector partnerships that help creative professionals transform ideas into sustainable businesses and impactful solutions. By combining creativity with technology, business, and research, EIT Culture & Creativity aims to boost Europe's competitiveness while promoting cultural diversity, digital transformation, and sustainable development.

Your contact

The CLC South East Europe & Alps is one of the 6 subsidiaries across Europe. It addresses, builds and serves local networks (<https://eit-culture-creativity.eu/about-us/clc-regions/>)

CLC South East Europe & the Alps | Vienna, Austria:
clc-sea@eit-culture-creativity.eu
