

EIT Manufacturing European Institute of Innovation & Technology (EIT)

Objectives

EIT Manufacturing's objectives are to:

- Foster innovation in manufacturing.
- Strengthen collaboration among industry, academia, and research.
- Enhance the competitiveness of European manufacturing.
- Develop a skilled workforce for the industry.
- Support manufacturing startups and entrepreneurs.
- Promote sustainability and environmental responsibility.
- Drive digital transformation in manufacturing.
- Encourage cross-border collaboration in Europe.

Initiatives and Services

EIT Manufacturing connects diverse networks and expertise that are essential to industrial innovation.

Through its focus on education, EIT Manufacturing seeks to empower Europe with people that are capable and inspired to shape the future of manufacturing.

Its Innovation pillar supports the European manufacturing community of companies and tech organisations to industrialise innovative projects.

While the Business Creation team empowers high-growth, profitable companies with a positive social impact.

Target Groups

- Manufacturing Companies
- Academic and Research Institutions
- Entrepreneurs and Startups
- Students and Future Workforce
- Innovators and Inventors
- Policy Makers
- Investors and Venture Capital
