

EIT Raw Materials European Institute of Innovation & Technology (EIT)

Objectives

EIT Raw Materials is a key European actor established in 2015 to advance Europe's transition into a sustainable economy. EIT Raw Materials overarching mandate is to support securing the supply of critical raw materials to the European industry by driving innovation along the raw materials value chain. EIT Raw Materials builds on the world's largest network of partners in raw materials and advanced materials.

EIT Raw Materials mission is to develop raw materials into a major strength for Europe by boosting competitiveness, growth and attractiveness of the European raw materials sector via radical innovation, new education approaches and guided entrepreneurship.

Initiatives and Services

EIT Raw Materials provides a collaborative environment for disruptive and breakthrough innovations by connecting more than 300 partners from industry, academia, research, and investment. It also invests in the future generation of innovators for the raw materials sector through initiatives ranging from the education of school students to higher qualifications for industry professionals.

Target Groups

- Businesses, especially SMEs in the raw materials sector.
- Research and academia for R&D.
- Entrepreneurs and startups for innovation.
- Public sector and policymakers for policy influence.
- General public and society for awareness.
