Stekla Hrastrnik (SH) is an innovative manufacturer of premium glass products with more than 160 years of tradition, located in a coal region in transition (JTF). The production of high-quality glass is a domain knowledge intensive process, which requires a seamless interaction between humans and complex machinery. SH already has the prerequisites for AI implementation (ERP, MES, EMS, IoT) and operates beyond SOTA tech, e.g., green Hydrogen2Heat pilot system used to produce carbon free glass		Organisation	Contact
