RISE: Research and Innovation Staff Exchange
A funding scheme in the Marie Skłodowska-Curie Actions under Horizon 2020

The RISE scheme promotes international and inter-sector collaboration through research and innovation staff exchanges, and through sharing of knowledge and ideas from research to market (and vice-versa).

- No secondments between institutions located outside Europe or within the same MS/AC

How can I apply?
Inform yourself about the application timeline and familiarise yourself with the most important documents (Work Programme, Guide for Applicants). For questions, get in touch with your National Contact Point or Euresearch Regional Office. Start the search for suitable partners early.

When can I apply?
The RISE-2017 call for proposals opened on 1 December 2016 with a deadline on 5 April 2017.

How much funding can be expected?
The EC contribution is calculated using the ‘researcher unit cost’ (= 1 researcher month) of €2000 Euro/month + the ‘institutional unit cost’ of €2500/month (research and training costs of €1800 + management and overhead of €700).

Why should I do it?
You can expand and strengthen your network and gain new expertise. You and your partners can share knowledge and skills, and broaden the career development of your staff.

Who can apply?
Organisations from the academic and non-academic sectors (in particular SMEs), based in EU Member States and Associated Countries (MS/AC) and outside Europe (Third Countries). Staff on secondment can be at any career stage and can also include administrative, managerial and technical staff involved in the research and innovation activities of the proposal.

Rules for secondments
- Eligibility conditions: staff must have been at the sending institution for at least 6 months prior to the first secondment
- Within Europe: only inter-sector secondments
Frequently asked questions

What is the success rate?
The overall success rate in the 2015 and 2016 RISE call was 26% and 25%, respectively.

When will I know the outcome of my proposal?
Approximately 3 months after the deadline. You can expect to start your project 8 months after the deadline.

Euresearch is the Swiss guide to European Research and Innovation.
We support Swiss participation in international research projects and research programmes. We provide information, motivation and coaching to interested stakeholders and organisations, especially in science and enterprise. We form a network of regional support organisations in close collaboration with institutions from universities and industry.
